

1. Turn on incoming CO<sub>2</sub> supply and wait one minute to allow the system to pressurize.

2. Turn on incoming water supply.

3. Connect power to carbonators, ice makers and beverage equipment.

4. Check that each BIB has not reached its “Enjoy by” date.

5. Perform standard daily and weekly cleaning procedures.

If you would like to take measures to disinfect non-food contact surfaces, refer to the Coca-Cola memo with suggested products that are compatible with our equipment.

#### Ice Makers Mounted on top of Dispensers

- Run two complete ice-making cycles and discard all the ice made.
- Sanitize ice maker bin.

#### Fountain Dispensers

- Sanitize ice bin, if present.
- Ensure fresh ice is in contact with cold plate and bin is at least 1/3 full.
- Run each beverage on each dispenser for at least 2 minutes twice.
- Taste all drinks. If there is an off taste from any valve, flush the valve for another minute, then check again for satisfactory taste. If taste remains unsatisfactory, place a service call.
